Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/16/04 has been entered.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Susan Pellegrino on 06 April 6, 2004.

The application has been amended as follows:

In the specification:

On page 1, before "Field of the Invention", insert --

This application claims benefit of US Provisional Applications 60/327,556, filed 6/15/2000 and 60/240,954, filed 9/28/1999. --

In the claims:

Cancel claims 33 and 36.

Claim 32: A method of treating diabetes or impaired glucose tolerance in a mammal comprising administering to the mammal a therapeutically effective amount of the polypeptide of claim 1 or the pharmaceutical composition of claim 6.

Claim 34: The method of claim 32, wherein said diabetes is type 2 diabetes.

Claim 35: A method of stimulating insulin release in a glucose-dependent manner in a mammal comprising administering to the mammal a therapeutically effective amount of the polypeptide of claim 1 or the pharmaceutical composition of claim 6.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest a polypeptide consisting of the entirety of SEQ ID NO: 72. The specification, on pages 31-32, provides support and enablement for treatment of diabetes and impaired glucose tolerance, and for insulin stimulation, in a mammal using SEQ ID NO: 72.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
